Galil ACE (GAP39) RECALL

IWI US is conducting a recall of all Galil ACE (GAP39) pistols that have a receiver with a 3-pin (3-hole) fire control group construction. While these pistols cannot fire automatically, BATF&E has historically held that AK type receivers with 3-pin (3-hole) fire control groups are, by definition, machine gun receivers.

Accordingly, all owners (FFL Dealers or Consumers) of a GAP39 pistol must return their firearms to IWI US, Inc. immediately for either a full refund or you can opt for replacement with a 2-pin (2-hole) pistol within 90 to 120 days.

FFL Dealers and/or Consumers must include a copy of an invoice or receipt with the returned firearm. IWI US cannot issue a refund without a receipt.

There are no safety issues involved with this recall.

FFL Dealers and Consumers should contact IWI US, Inc. at (717) 695-2081, email recall@iwi.us or write the company at:

IWI US, Inc.
Attn. GAP39 Recall
P.O. Box 126707
Harrisburg, PA 17112

IWI US, Inc. will issue a Return Authorization number (RA#) and will issue a "Call Tag" for UPS to pick up the firearm(s) at no cost to the FFL Dealer or Consumer. Returned firearms must have a RA# or they will be refused.

Please allow up to 4 weeks to receive your refund.
